Agricultural Product Range

Victorian Chemicals manufactured its first product for agriculture in 1939, Voullaires Ee-Muls-Oyle; this is now the leading Fruit Drying Oil in the Sunraysia Region (Mildura). Since then, our knowledge of oils and surfactant chemistry and manufacturing capability has increased significantly. This has been instrumental in the development of our product range. These products, including the well known spray adjuvants Hasten and Hot-Up, are designed to assist the agricultural industry in its drive for higher productivity and value. Victorian Chemicals remains committed to providing our customers with quality products, and service that is both professional and friendly. We will continue to develop; our understanding of our customers' requirements, the operations of our company and our technical expertise.

	Spray Adjuvants			
and the owner of the owner own	Description	Key Benefit(s)	Applications	Packaging
HASTEN	HASTEN <sup>+</sup> - Spray Adjuvant			
	Esterified Vegetable Oil (Ethylated) and Nonionic Surfactants	Widely cross labeled with leading Herbicide products, HASTEN has excellent surface penetration capabilities and is suitable for use with most agrichemical products and in a wide range of spray conditions. BFA approved*	Herbicides Insecticides Fungicides Defoliants	20L 110/120L 1000L

HOT-UP	HOT-UP <sup>+</sup> - Spray Adjuvant			
	A blend of Ammonium Sulphate, Nonionic Surfactants and Mineral Oil	Designed to enhance the performance of Glyphosate and other knockdown herbicides in adverse conditions; hard water protection, hot conditions and difficult to wet weeds.	Non-Selective Herbicides	20L 110/120L 1000L

	DELUGE <sup>+</sup> 1000 - Wetting Agent					
1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	Nonionic Surfactant for agricultural use	General purpose surfactant to improve spray droplet retention, wetting and spreading on target surface for herbicides and pesticides as per their label instructions. BFA Approved*	Herbicides Insecticides Fungicides	5L 20L 110/120L 1000L		

	INFILTRATOR <sup>+</sup> - Spray Adjuv	ant		
TRANSPORT	Esterified Vegetable Oil (Methylated) and Nonionic Surfactants	INFILTRATOR has very good surface penetration capabilities that enhance active ingredient performance.	Herbicides Insecticides Fungicides	20L 110/120L 1000L

	SPRINTA <sup>†</sup> - Superwetter			
A state of the sta	100% organo silicone Nonionic Superwetter	Assists retention of spray droplets and provides excellent coverage on target surface and penetration of active ingredients.	Herbicides Insecticides Fungicides	1L 2.5L 5L 10L

WET-AS'	WET-AS <sup>†</sup> - Spray Adjuvant			
	A blend of Ammonium Sulphate and Nonionic Surfactants	Minimises the detrimental effects of hard spray water on susceptible herbicides eg. Glyphosate, increases spray droplet coverage on weed surfaces and acts as a compatibility agent in tank mixes	Herbicides	20L 110/120L 1000L

CAUTION				
INBOUND	INBOUND <sup>+</sup> - Spray Adjuvant			
	Highly refined Mineral Oil and a high concentration (20%) of Nonionic Surfactants	High loading of Surfactants improves retention, spreading and penetration of a wide range of agrichemicals.	Herbicides	20L 110/120L 1000L

AD-HERE	AD-HERE <sup>+</sup> - Spray Adjuvant			
	Highly refined Mineral Oil and Nonionic Surfactants	Highly refined mineral oil reduces the potential for crop phytotoxicity. Can be used as a bulking agent in low volume applications.	Herbicides Insecticides Fungicides Defoliants	20L 110/120L 1000L Bulk

GAUTION				
EMPOWER	EMPOWER <sup>†</sup> - Spray Adjuvan	t		
	Refined Mineral Oil and Nonionic Surfactants	Excellent bulking and anti-evaporant agent in non-selective situations.	Herbicides Insecticides	20L 110/120L 1000L Bulk

ENVOY	ENVOY <sup>+</sup> - Spray Adjuvant					
	A blend of cationic Buffering agents, Nonionic Surfactants and Canola oil	The buffering system will improve the performance of knockdown herbicides, eg. Glyphosate, that are susceptible to unfavourable spray water pH conditions.	Non-Selective Herbicides	20L 110/120L 1000L		

100	A second second second				
	NEXUS	NEXUS <sup>+</sup> - Spray Adjuvant			
	A DE CONTRACTOR OF THE OWNER	Highly refined Canola Oil and	Enhances spray droplet deposition on the target by improving retention	Herbicides	20L
5.	Statement Statement	Nonionic Surfactants	and reducing evaporation rates. BFA approved*	Insecticides	200L
				Fungicides	1000L

ASSERT*	ASSERT <sup>+</sup> - Spray Adjuvant			
Net and Research and Annual Strength and Annua	High strength liquid Ammonium Sulphate solution	Minimises the detrimental effects of hard spray water on susceptible herbicides eg. Glyphosate and acts as compatibility agent in tank mixes	Herbicides	20L 120L 1000L

CAUTION	Speciality Products for Hortic		
and	•	Key Benefit(s)	Packagin
TRUMP	TRUMP <sup>+</sup> - Spray Oil		
SPRAY OL	Highly refined Paraffinic Oil	Very high purity parraffin oil designed to minimize phytotoxicity potential and assist growers	20L
And	(USR >98%) and Surfactants	in maximizing the value of their produce by killing pests directly and enhancing the	200L
2000		performance of certain pesticide products. BFA approved*	1000L
turner.			Bulk
and the second second			
SUMMER OR	VICOL <sup>+</sup> SUMMER OIL - Insecti		
	Highly refined Petroleum Oil	Successfully used by growers for over 20 years for the management of insects and disease in	20L
	(USR >92%) and Surfactants	their crops. Suitable for use throughout the year when used according to the label.	200L
Contraction of the second		BFA approved*	1000L Bulk
jointh.			
VICOL WINTER OIL	VICOL <sup>†</sup> WINTER OIL - Insecticide		
12117	Refined Petroleum Oil	Designed for use only on trees and plants that are completely dormant, this product provides	20L
	and Surfactants	cost effective control of certain insect pests.	200L
			1000L Bulk
DELUGE LOW FOAM			
WETTING AGENT	DELUGE <sup>†</sup> LOW FOAM - Wettin	g Agent	
		Designed for low phytotoxicity potential and to improve spray results by assisting retention,	10L
	Surfactant for high value crops	wetting and spreading of spray droplets and improved uptake of agrichemicals.	20L
VICTORIAN			200L 1000L
"Autorian Solan"			TOOOL
HITMAN	HITMAN <sup>+</sup> - Soap Insecticide		
1147-011110111	Selected potassium soaps for soft	An organically approved contact insecticide and wetting agent that has no withholding	20L
A-100.072	bodied insect control	period and poses a low risk for users and the environment.	20L
		BFA approved*	200L
Line he		STR 400	
Voullaire's'	VOULLAIRE'S <sup>+</sup> EE-MULS-OYLE	5t - Multi-purpose Drving Ail	
			201
College -	Esterified Vegetable Oil and	A premium emulsifiable oil product for drying grapes and other whole fruits.	20L
	Curfostonto	Dremeter renid drains which improves the encourage testure and value of dried fruit	
	Surfactants.	Promotes rapid drying which improves the appearance, texture and value of dried fruit.	200L
	Surfactants.	Promotes rapid drying which improves the appearance, texture and value of dried fruit. Components approved for use by the USA Food and Drug Administration. BFA approved*	200L 1000L
	GALA <sup>†</sup> - Growth Regulator	Components approved for use by the USA Food and Drug Administration. BFA approved*	1000L
	GALA <sup>+</sup> - Growth Regulator Gibberellic Acid (GA <sub>3</sub> ) in Ethyl	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for	1000L
	GALA <sup>†</sup> - Growth Regulator	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for use as a foliar spray to promote beneficial effects on grapes, prunes and citrus, and to	1000L
	GALA <sup>+</sup> - Growth Regulator Gibberellic Acid (GA <sub>3</sub> ) in Ethyl	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for	1000L
	GALA <sup>+</sup> - Growth Regulator Gibberellic Acid (GA <sub>3</sub> ) in Ethyl	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for use as a foliar spray to promote beneficial effects on grapes, prunes and citrus, and to	1000L
	GALA <sup>+</sup> - Growth Regulator Gibberellic Acid (GA <sub>2</sub> ) in Ethyl Oleate and Surfactants BUFF-IT <sup>+</sup> - Spray Adjuvant	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for use as a foliar spray to promote beneficial effects on grapes, prunes and citrus, and to stimulate winter growth in grass based pasture. (registration pending)	1000L
	GALA <sup>+</sup> - Growth Regulator         Gibberellic Acid (GA.) in Ethyl         Oleate and Surfactants         BUFF-IT <sup>+</sup> - Spray Adjuvant         A blend of Nonionic Sufactants and	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for use as a foliar spray to promote beneficial effects on grapes, prunes and citrus, and to stimulate winter growth in grass based pasture. (registration pending) Buffers spray water to pH range 4 to 5, contains an indicator which changes colour at pH 5,	1000L 1L 10L
	GALA <sup>+</sup> - Growth Regulator         Gibberellic Acid (GA.) in Ethyl         Oleate and Surfactants         BUFF-IT <sup>+</sup> - Spray Adjuvant         A blend of Nonionic Sufactants and	Components approved for use by the USA Food and Drug Administration. BFA approved* A unique non-flammable and non-poisonous liquid formulation of Gibberellic Acid for use as a foliar spray to promote beneficial effects on grapes, prunes and citrus, and to stimulate winter growth in grass based pasture.
