BEFORE OPENING OR USING**

SUREWET⁺ 1000

WETTING AGENT

**ACTIVE CONSTITUENT:
1000 g/L ALCOHOL ALKOXYLATE**

**A NON-IONIC 100% WETTING AGENT,
FOR THE IMPROVEMENT OF SPRAY COVERAGE
WHEN USING AGRICULTURAL CHEMICALS**

VICCHEM

The Right Chemistry

SUREWET⁺ 1000

WETTING AGENT

DIRECTIONS FOR USE:

SUREWET 1000 can be used where the addition of a Surfactant is required or recommended on the agricultural chemical label. Variations in conditions of use can require some changes in the amount of SUREWET 1000.

SITUATION	RATE/100L	CRITICAL COMMENTS
Non-Selective Herbicides FOLIAR ACTIVE	25-100mL	Use the higher rate on waxy, hairy or hard to wet surfaces. Increase rate for dry soils.
Selective Herbicides IN CROP USE	25-100mL	Use when a surfactant is recommended on herbicide labels. Use the higher rate on waxy, hairy or hard to wet surfaces.
Soil Residual Herbicides	100-400mL	When applied with soil residual herbicides to standing weeds, add SUREWET 1000 to thoroughly wet foliage. Consult product labels for individual recommendations.
Horticulture Insecticides, Fungicides and Growth Regulators	40-100mL	Vary rate according to the volume and nature of target. Use only when recommended on product labels.
Paraquat and Diquat Herbicides Important when grasses are the major target	25-100mL	Vary rate according to spray volume. Select rate in accordance with product labels.
Pasture Topping For use with Glyphosate CT	125mL	
Watering of Turf and Dust Abatement As additive to water	40-100mL	Use the higher rate when watering turf.
Fire Fighting Water Tanker Knapsack	5mL/100L 2mL/15mL	In this field SUREWET 1000 has the advantage of less weight to carry compared with less concentrated surfactants and of being non-flammable. It increases the wetting power of water which assists in quick control and mopping up of fires. It is of particular value where water may not be readily available, when a less drenching spray is needed, and a tankful will cover a bigger area.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

NOTE: Where product labels recommend the addition of a non-ionic wetting agent as a percentage (%) dilution, add 100mL SUREWET 1000 per 100 litres of spray mixture to give 0.1%, 250mL/100L to give 0.25% or other rates as required using these examples.

MIXING

For wettable powders and water soluble products, add SUREWET 1000 in water before adding the agricultural chemical to spray tank. For emulsifiable products, add SUREWET 1000 after a good emulsion is formed.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Harmful to fish. Do not contaminate ponds, streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. When using or preparing product for use, wear overalls, PVC/rubber gloves, goggles and safety shoes. After use and before eating, drinking or smoking wash hands.

First Aid

If poisoning occurs, contact a doctor or Poisons Information Centre (**Phone Australia 13 11 26**).

Material Safety Data Sheet

For further information refer to the Material Safety Data Sheet (MSDS) which is available from the supplier.

Hazard Statements

Causes serious eye irritation. Toxic to aquatic life with long lasting effects

Precautionary Statements

Wear eye protection and protective gloves. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. Avoid release to the environment. Collect spillage. Dispose of contents/container in accordance with local regulations
